

WELCOME TO OUR SECOND UPWORK PROJECT NEWSLETTER-2025 UPDATE!

We are excited to share with you our recent accomplishments and the valuable feedback we've received in this promising year of 2025.

As we continue to grow and evolve, we are grateful for your support and are thrilled to bring you updates on the progress and successes we've achieved so far.

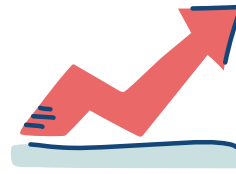

Sharing Knowledge and Resources

We are excited to share the highlights from our recent **Train the trainers** (TTT), which took place in Krakow, Poland. The successful organization of this event would not have been possible without the invaluable support of our partner, Stella Virium. Their dedication and collaboration played a pivotal role in making this meeting a success.

Over 20 teachers attended the TTT, creating a dynamic environment for collaboration and knowledge exchange. During the event, we had the opportunity to showcase our materials and resources, facilitating rich discussions on how best to enhance e-learning course for learners with special needs.

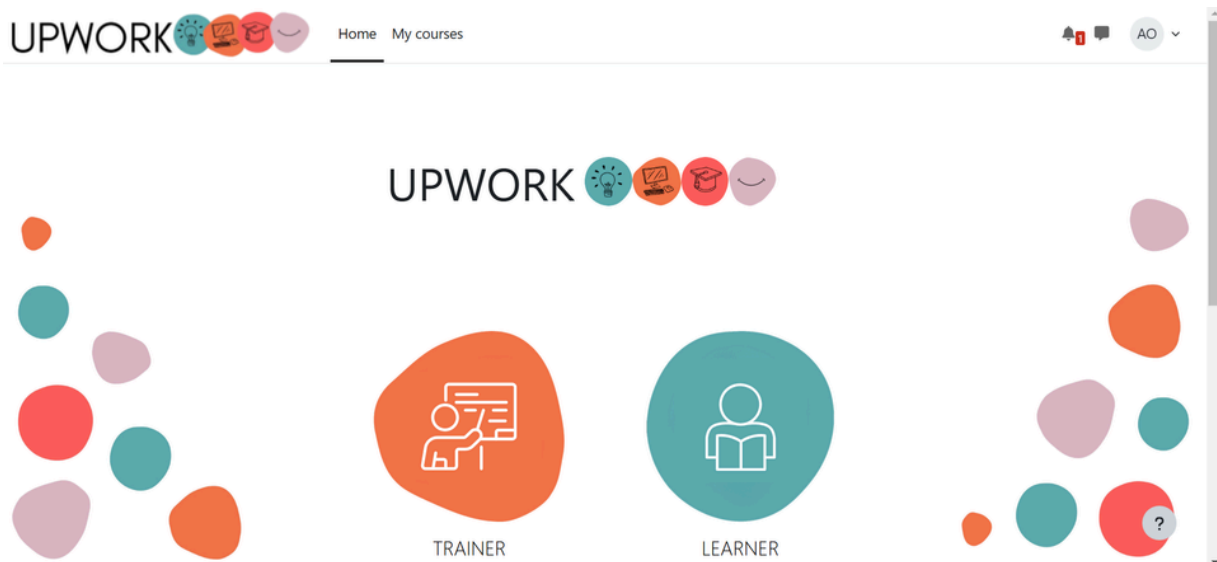

OUR ACHIEVEMENTS

We continue to make significant progress on the **Digital Curriculum for VET Professionals** (Vocational Education and Training). Our team is dedicated to developing comprehensive, accessible training paths specifically tailored to meet the needs of learners with special requirements.

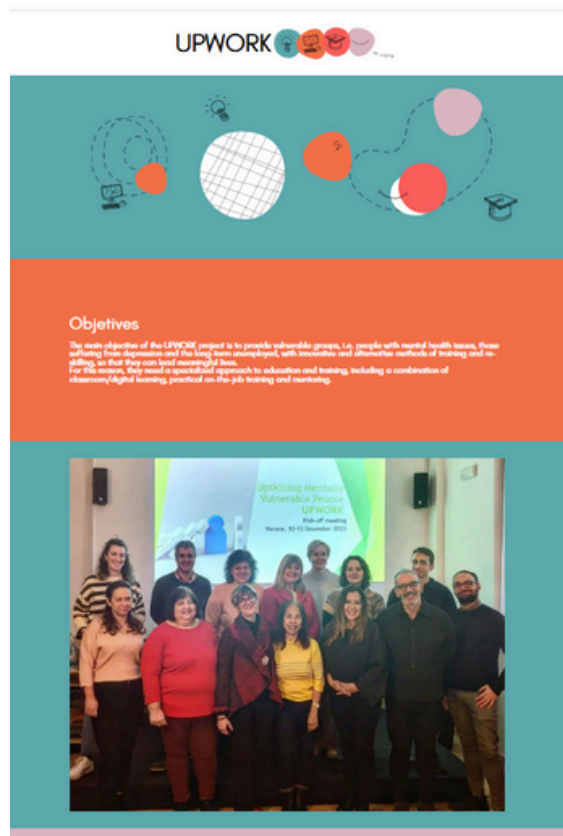

We're excited to announce that our upcoming **Learning Platform** will serve as a central hub for all project-related resources and learning materials, providing an easy-to-navigate platform for both educators and learners.

EXCITING UPDATES: New Website!

In our ongoing efforts to enhance the learning experience, we are excited to present our **new website**.
